

*Supporting & Collaborating  
with Government*

**Natural Capital  
(NC) 1 Vision:**  
“We will have species,  
habitats and water  
bodies that are  
resilient to the impacts  
of climate change”

## Woodland Trust’s Contribution to the Environmental Farming Scheme & the Forest Expansion Scheme

### Action Ownership and Lead Organisation

DAERA

### Environmental Farming Scheme

Woodland Trust will aim to support DAERA's delivery of the Environmental Farming Scheme by providing guidance and support to farmers on sustainable farming and land management practices in order to safeguard and improve ecosystem goods and services delivered by species and habitats. They will also encourage the uptake of green infrastructure elements such as hedgerow planting, pond creation, sward diversification in order to improve biodiversity and landscape resilience.

### Information provided by:

#### Woodland Trust

### Other Organisations:

#### Environmental Farming Scheme

NI Water, Heart of the Glens  
Landscape Partnership Scheme (LPS)  
and Patrick Casement Support

#### Forest Expansion Scheme

Forestry agents such as NI Farm Forestry,  
Scottish Woodlands and Indiwoods,
