

## Private Sector Contributions

**Natural Capital (NC)2 Vision:**  
“We have coastal communities, habitats, landforms and infrastructure that are resilient to the impacts of climate change”

**Infrastructure Services (IF)1 Vision:**  
“We have transport and network services that are resilient to the impacts of flooding and extreme weather”

## Business Continuity Planning

Belfast Harbour Commissioners

### NI Evidence Report Risks & Opportunities Addressed:

**In3:** Risks to infrastructure services from coastal flooding & erosion  
**In11:** Risks to energy, transport & digital infrastructure from high winds & lightning  
**In13:** Risks to transport, digital and energy infrastructure from extreme heat

### Collaborating Organisations:

Belfast Harbour Commissioners

### Funders

Belfast Harbour Commissioners

### Implementation Timeline

Commenced and ongoing

### Strategic Project

Belfast Harbour will continue incorporating projected climate change and information from modelling into their Business Continuity Planning process, risk management strategies, warning and informing system, operational controls, and new developments.
